## Harry Potter as a symbol of the new generation

Sometimes you can see a statue that honour a fictional character. It is not surprise, there are many books that people love so much that they decide to make a statue of their beloved character. We can surely say that literature influences on many people. Unique characters change people.

Harry Potter is fictional character. This boy was created by British author ~~John~~ J. Rowling. Harry Potter was first introduced in the novel "Harry Potter and the Philosopher's Stone". Children from all of the world know a story about this young magician. I think Harry Potter can be a symbol of the new generation and there are several reasons for it. Firstly, Harry Potter is a very strong personality. He is talented, clever, positive and kind. He always overcomes difficulties, risks his life for your friends and never gives up. He is very loyal friend and has an especially tight bond with his best friend's Hermione and Ron. Moreover, one of Harry's most defining traits is his bravery and his willingness to risk his life for others.

I believe that the statue will be majestic. I see him flying on <sup>the</sup> broom with a golden snitch in his ~~armes~~ arms. His face is nice and brave. There are many loyal friends around him.
